

TESTIMONIAL

"Thank you so much for your input to the MTP Europa Seminar held at Manchester University on the 14th and 15th July 2005. Your presentation met our needs exactly, the topic 'Managing Change' was covered at the right level to be of value to the 200 managers who participated. The presentation was delivered in a manner which both engaged and motivated the listener. I know from subsequent discussions with participants that they greatly valued the trouble you had taken to greet them in their mother tongue and present the slides in Russian and English, it certainly impressed me. On a more personal note, I much appreciated your friendly, enabling approach

I hope that we have the opportunity to work together again in the future."
